---

The screenshot shows the 'Primes' game interface. At the top, there are buttons for 'NEW GAME', 'END', and 'HELP'. Below them is a list of prime numbers: 127, 131, 137, 139, 143, 151, 157, 163, 167, 173, 179, 181, 191, 193, 197, 199, 211, 223, 227, 229, 233, 239, 241, 251, 257, 263, 269, 271, 277, 281. Below this is a table with columns 'LEVEL', 'TIME', 'SUM', and 'SCORE'. The table contains the following data:

LEVEL	TIME	SUM	SCORE
167	1	11	11
83	18	33	114
157	26	16	29
7	57	180	54

Below the table, the word 'Primes' is written in a cursive font. At the bottom, there is a keyboard with buttons for numbers 1-0, symbols, and a spacebar.

The screenshot shows the 'Primes' game interface with a Facebook share dialog open. The dialog has buttons for 'Annulla', 'Facebook', and 'Pubblica'. The text in the dialog reads: 'I made a new record by playing "Primes": 13567' and 'http://www.ngcybit.it'. Below the dialog is a keyboard with buttons for numbers 1-0, symbols, and a spacebar.
